Cal OES Law Missions

- **2019-LAW-2914, 06/29/19, 1624 hours:** AFRCC reported a possible ALNOT-Stolen Aircraft (N3504A) from Santa Cruz County. The plane was discovered missing on Wednesday (06/26/19) at approximately 2030 hours. The plane is owned by a club with multiple members/owners, and there were no planned flights for that plane during that time frame. AFRCC could not complete a forensic RADAR of the plane without a distinctive criminal element. The case was turned over to Watsonville PD who is investigating the case. Coast Guard was notified of the missing aircraft and received a track of a *possible* plane (from AFRCC) that left Santa Cruz around the same time as N3504A. That track, per AFRCC dropped off the RADAR 3.7 miles off the coast of San Mateo County. A follow up investigation with the airport, flight instructors at the club, AFRCC, Coast Guard, San Mateo SAR and Watsonville PD is being conducted. **Update;** US Coast Guard searched the area of the last known point of the suspected flight path of the aircraft 3.7 miles off the coast of Ano Nuevo State Park with negative results. Watsonville PD is conducting an investigation into the subject that the flight club believes was the pilot of N24580. The Plane and the primary suspect are still MIA. **MISSION ONGOING**
